

■ Mobile app compatibility with iOS 13 and iPadOS 13: November 7, 2019

On September 19, 2019, Apple released iOS 13 and iPadOS 13. At this time, we can't guarantee full compatibility between these operating systems and our mobile applications (rekordbox, DJM-REC, RMX-1000 for iPad, WeDJ for iPhone, WeDJ for iPad, and KUVO).

If you update to iOS 13 or iPadOS 13 you may experience some issues when using our apps.

DJM-REC currently can't be used on iOS 13 or iPadOS 13, or any later versions. Recording or live streaming via a connection with a mixer may stop unexpectedly.

RMX-1000 for iPad may lose its connection to the mixer unexpectedly.

Our engineering team are working hard on fixes for these issues so you can enjoy full use of our apps with iOS 13 and iPadOS 13.

We'll update you again soon and apologize for any inconvenience in the meantime.

Visit Apple for more information about iOS 13.
