

DJM-V10-LF firmware - change history

ver. 1.13 (July 18, 2024 update)

[IMPROVED]

- ✓ Following the Ecodesign Directive (Directive 2009/125/EC) of the European Union, the time needed for the unit to automatically switch off has been changed to 20 minutes when the Power Management function is turned on.

Please note:

- The name of the energy-saving function, (previously called Auto Standby or Auto Power-Off, depending on the model), has now been changed to Power Management.
- To learn more about the Power Management function, see the latest Instruction Manual, which is available online.

ver. 1.12 (December 15, 2022 update)

[IMPROVED]

- ✓ Potential audio cut-out issue when connecting the DJM-V10-LF to the CDJ-3000 via PRO DJ LINK network.

ver. 1.11 (November 18, 2021 update)

[FIXED]

- ✓ Minor issues.

ver. 1.08 (April 27, 2021 update)

[NEW]

- ✓ Track titles and artist names will be automatically added to DJM-REC recordings when music is played on a CDJ-3000 in the PRO DJ LINK network.

Note: Be sure to update the CDJ-3000 firmware and DJM-REC app to the latest versions.
