Pioneer DJ

Firmware for CDJ-3000 - CHANGE HISTORY

Ver.2.00 (30 November, 2021 Update)

[NEW]

✓ Support for rekordbox CloudDirectPlay.

[IMPROVED]

✓ HOT CUE points weren't displayed on the waveform screen under certain conditions.

[FIXED]

✓ Unable to play some WAV files.

✓ The first decimal place of the BPM value was different compared to the previous model, the CDJ-2000NXS2.

✓ Hot Cue Loop function worked incorrectly under certain conditions.

Ver.1.22 (11 November, 2021 Update)

[FIXED]

✓ Latency occurred during USB-HID control.

✓ PRO DJ LINK worked incorrectly when linked to an internet connection while using the CDJ-3000 firmware ver.1.21.

Ver.1.21 (12 October, 2021 Update)

[FIXED]

✓ BPM sometimes displayed incorrectly when moving the tempo slider.

Ver.1.20 (30 September, 2021 Update)

[NEW]

✓ HID Support for Serato DJ Pro.

[IMPROVED]

✓ Jog Wheel pitch bend sensitivity.

[FIXED]

✓ Unable to show waveforms of the CDJ-3000 on the tilt display on the CDJ-TOUR1 and DJM-TOUR1.

Note: Update the CDJ-TOUR1/DJM-TOUR1 firmware to the latest version.

✓ Issues when deleting a track from a tag list.

Ver.1.11 (24 June, 2021 Update)

[FIXED]

- ✓ Date Added was not shown correctly.
- ✓ Stacked waveform flickered when using some files.
- ✓ Beat Sync worked incorrectly when using some MP3 files.
- ✓ Some m4a files wouldn't play on the CDJ-3000.

Ver.1.10 (22 April, 2021 Update)

[NEW]

- ✓ Support for TC Supply's ShowKontrol and PRO DJ LINK Bridge.

Ver.1.09 (16 March, 2021 Update)

[FIXED]

- ✓ Emergency Loop could start when the Hot Cue button was pressed during pause (using Pause or Cue).

Ver.1.08 (9 February, 2021 Update)

[NEW]

- ✓ Audio file cache now supports a full file.
- ✓ Support for KUVO.

[FIXED]

- ✓ Incorrect key notation on the Load Previous Track screen.

Ver.1.06 (4 November, 2020 Update)

[FIXED]

- ✓ Improved the response of the CUE button when turning the jog wheel.
- ✓ Improved performance / stability when using Touch Preview and Touch Cue.
- ✓ Improvements to jog wheel when in vinyl mode. Specifically when the track is paused.
- ✓ Unable to load certain tracks that have been exported from rekordbox to a storage device (SD / USB).
- ✓ Elements of the Beat Countdown were displayed incorrectly.

Ver.1.05 (16 September, 2020 Update)

[IMPROVED]

- ✓ Quality of enlarged waveform.
