

Firmware for CDJ-350 – CHANGE HISTORY

Ver.1.14 (6 September, 2018 Update)

[FIXED]

- ✓ Playback sometimes stopped when playing a track with a length over 10 minutes when using TRAKTOR via USB.
- ✓ Some USB 3.0 devices were not recognised.

Ver.1.13 (30 September, 2015 Update)

- ✓ Fixed an issue where playback jumped to the beginning of a track when playing a long WAV/AIFF track.

Ver.1.12 (30 September, 2013 Update)

- ✓ Fixed an issue that the MIDI-data is not output to a particular computer.

Ver.1.08 (17 July, 2012 Update)

- ✓ Improved output accuracy of the time code signals in DVS operation using CONTROL CD.

Ver.1.06 (7 July, 2011 Update)

- ✓ Improved functionality so that user can switch the source between PC(COMPUTER) and DISC while DJ software is running.

Ver.1.04 (25 April, 2011 Update)

- ✓ Became accessible to some USB 2.0 compatible USB 3.0 media. The data rate to USB 3.0 media is limited to USB 2.0 full-speed.
- ✓ Improved the JOG touch feeling when using some DJ software.
