CDJ-350 - CHANGE HISTORY

Ver 1.12 (30 September, 2013 Update)
- ✓ Fixed an issue that the MIDI-data is not output to a particular computer.

Ver 1.08
- ✓ Improved output accuracy of the time code signals in DVS operation using CONTROL CD.

Ver 1.06
- ✓ Improved functionality so that a user can switch the source between PC (COMPUTER) and DISC while DJ software is running.

Ver 1.04
- ✓ Support for some USB 2.0 compatible USB 3.0 media. The data rate for USB 3.0 media is limited to USB 2.0 full-speed. (480Mbps)
- ✓ Improved the JOG touch feeling when using some DJ software.
