

CDJ-900NXS - CHANGE HISTORY

Ver. 1.21 (17 February, 2015 Update)

- ✓ Fixed an issue where tracks in some folders in a 2TB HDD were not displayed when browsing the folder.
- ✓ Fixed an issue of slow browsing in the track list on CDJ-900NXS when Serato DJ is used in HID mode.
- ✓ Fixed an issue where track selection using the alphabetical search is not available and the "waiting circle" is continuously shown.

Ver.1.20 (1 April, 2014 Update)

- ✓ Add a new function (analyzing a part of MP3/AIFF Tags) to support KUVO service. This update is only for using KUVO.

Ver.1.10 (3 February, 2014 Update)

- ✓ Modified the QUANTIZE icon.
- ✓ Increased the number of beat lengths shown in the LOOP beat length icon.
- ✓ Improved the sound delay when SLIP BEAT LOOP begins while MASTER TEMPO is ON.
