

Firmware for XDJ-R1 – CHANGE HISTORY

Ver.1.13 (13 September, 2016 Update)

[FIXED]

- ✓ Noise occurred when playing some tracks on a USB storage device.
- ✓ Hot cue position was not on the beat position when it was called on rekordbox even if it was set on XDJ-R1 with QUANTIZE ON.

Ver.1.12 (12 February, 2015 Update)

- ✓ Support for iOS 8 becomes available, ensure remotebox used with XDJ-R1 is updated to Ver.1.3.0.

After updating the firmware to Ver.1.12, ensure remotebox used with XDJ-R1 is updated to Ver.1.3.0.

Please download the latest remotebox from the following website.

The latest remotebox

Ver.1.11 (22 January, 2015 Update)

- ✓ Fixed an issue where a Loop set at the beginning of specific WAV files may not start playing.
- ✓ Fixed an issue where a track with a long loop set in rekordbox may not be properly played.
- ✓ Fixed an issue where some of m4a files may not be played.

Ver.1.10 (15 May, 2014 Release)

- ✓ Fixed an issue where noise may be generated when performing fast forward, backwards or adjusting the tempo while playing some quantised 24bit WAV files.

Ver.1.09 (15 January, 2014 Release)

- ✓ Improved an accuracy of BPM values.

Ver.1.08 (21 November, 2013 Release)

- ✓ Added a new function where Cue Points on a track stored on a USB device which have been set in rekordbox or on a CDJ can be called using the Auto Cue function on the XDJ-R1.

Guide to MEMORY CUE AUTO LOAD

- ✓ The parameter values of COLOR and LEVEL/DEPTH on the XDJ-R1 are now visible in remotebox when pressing the SOUND COLOR FX or BEAT FX buttons while Software Take Over is disabled.
- ✓ Fixed a rare issue where an AAC file format with extension aac. jumped back to the beginning of the track when it reached the end by fast forward scanning (jog rotation + shift button) during playback.
- ✓ Fixed an issue where the Slave (non-master) deck playback position was delayed by 1 beat when a track with no beat at the beginning started playback on both decks when using SYNC.
- ✓ Fixed a rare issue where noise was generated when switching the Jog mode from Vinyl to Normal mode.
- ✓ Improved stability.

Ver.1.07 (10 September, 2013 Release)

- ✓ Fixed an issue where a noise is heard between the end and the beginning of some rekordbox-analyzed tracks in AIFF file format.

Ver.1.06 (3 September, 2013 Release)

- ✓ Fixed an issue where beat SYNC did not work on the first beat as users would expect.
- ✓ Fixed an issue where QUANTIZE did not work on the nearest beat when setting a CUE and using other features.
- ✓ Fixed an issue where MP3 files analysed with rekordbox may not be played.
- ✓ Fixed an issue where a freeze may occur when a HOT CUE is called.
- ✓ Fixed an issue where a freeze may occur when a needle search is performed to the end of a track when using remotebox.
- ✓ Fixed an issue where CATEGORY is not shown in the BROWSE DISPLAY when pressing the USB button with no track loaded.

- ✓ Fixed an issue where AUTO STANDBY mode would unexpectedly activate when using the AUX input.
- ✓ Fixed an issue where communication from remotebox to XDJ-R1 via WLAN was sometimes cut off.
- ✓ Improved the operability and stability of XDJ-R1.

Ver.1.05 (1 August, 2013 Release)

- ✓ Fixed a freeze issue when playing some AIFF files.
- ✓ Fixed an issue where the same position of the track is repeated when scratching.
- ✓ Fixed an issue where the LOOP IN position is repeatedly played when AUTO BEAT LOOP starts with QUANTIZE enabled.
- ✓ Removed one of the causes of freezing.
- ✓ Added a caution message when the tempo slider is moved when disabled.
- ✓ Fixed an issue when a cue is set at the start of a track with quantize enabled, the cue actually starts at the next beat when the track's first beat is at the track's start position.
- ✓ Fixed an issue where BPM SYNC starts when a track playing on the slave deck is changed when a track's BPM is "out of range".
- ✓ Fixed an issue where the cross fader position on remotebox is not synced with the XDJ-R1 even when the cross fader is moved on XDJ-R1.
- ✓ Improved the operability and stability of XDJ-R1.

Ver.1.04 (25 June, 2013 Release)

- ✓ Fixed an issue where "No DISC" would appear on the FL display even when a playable CD is inserted to XDJ-R1.
- ✓ Improved the operability and stability of XDJ-R1.
