

Firmware Update Manager

User Guide

PC/Mac setup

- For information on the latest system requirements, compatibility, and supported operating systems, visit the URL below.
pioneerdj.com/en/landing/firmware-update-manager/
- Operation isn't guaranteed on all PC/Mac models, even if the system requirements are met.
- Malfunctions may occur due to incompatibility with other software installed on a PC/Mac.

Installation

Notes on installation

- Close all applications running on the PC/Mac before installation.
- You'll need admin rights to install the Firmware Update Manager to your PC/Mac.
- Read the Software License Agreement terms carefully before installation.
- If you quit the installation halfway through, perform the installation procedure from the beginning again.
- Operation isn't guaranteed on all PC/Mac models.

Downloading the Firmware Update Manager

1. Visit the URL below.
pioneerdj.com/en/landing/firmware-update-manager/
2. Click [Download Windows version] or [Download Mac version] and save the file.
Download the Firmware Update Manager for your PC/Mac.

Installing the Firmware Update Manager

1. Unzip the Firmware Update Manager.
2. Double-click the installation file.
 - Double-click “FWUPDM_#.#.#.exe” if you’re using a PC (Windows), or “FWUPDM_M_#.#.#.dmg” → “FwUpdateManager.pkg” if you’re using a Mac (# indicates the version number of the software).
3. Read the License Agreement terms carefully.
 - If you agree to the terms, mark the [Agree] check box and click [OK].
 - If you don’t agree to the License Agreement terms, click [Disagree] (for Mac) / [Cancel] (for Windows) to cancel the installation.
4. Follow the on-screen instructions to complete the installation.

Firmware Update Manager

Notification of firmware updates

When a Pioneer DJ product is connected via USB to a PC/Mac with Firmware Update Manager installed, the following window will be displayed if a new firmware update is available.

The window shows the current version installed on the connected device and the latest version available for download.

In this window, you can also set the interval at which you want Firmware Update Manager to automatically check for available updates via the pull-down list under [How often do you want Firmware Update Manager to check for available updates?].

Downloading the firmware

1. Select the update to download and click [Start] to display the following window.

2. Select the destination and click [Open] (for Mac) / [OK] (for Windows) to start downloading the firmware.
3. When the download is complete, the download result and the downloaded file will be displayed.

Updating the firmware

The product firmware doesn't update automatically – you'll need to do it manually.
For details on how to update the firmware, visit the URL below.

pioneerdj.com/support/

Setting the interval to check for available updates

The interval to check for available updates can also be set using the following procedure.

1. Launching Firmware Update Manager

For Mac

1. Open the [Application] folder in Finder.
2. Click [Pioneer] → [FwUpdateManager] → [Firmware Update Manager].

For Windows 11

1. Open the Start menu and click [All apps] → [Pioneer] → [Firmware Update Manager].

For Windows 10

1. Open the Start menu and click [Pioneer] → [Firmware Update Manager].

2. Click the pull-down list under [How often do you want Firmware Update Manager to check for available updates?] and select an interval.
