DJ Controller

DDJ-ERGO

"djay"
Setup Guide

1. Before start (Important)

Please read carefully and follow the instruction below to install "djay."

· Make sure to log on your computer with the administrator account because administrator rights are required when installing the software.
· "djay" is an application to be used only on Macintosh computer, but NOT on Windows.
· Some functions may be limited with some tracks purchased at iTunes Store, excluding iTunes Plus tracks, due to DRM (Digital Rights Management), for example, the recording function and the monitoring function.

Disclaimer
"djay" is a product of algoriddim GmbH.
In principle, Pioneer is not in the position of answering any inquiries on the usage of the software itself. Please refer to the help menu or access the following support page of algoriddim:
http://www.algoriddim.com/support/djay-mac

2. Minimum operating environment

| OS(Mac)	Mac OS X v10.5.8 or later
	Intel® processor platform 1.8GHz or better
	1GB or more RAM

Cautions
· Full functionality is not guaranteed on all computers, even those meeting the operating environment requirements described above.
· Even with the required memory indicated for the operating environment above, lack of memory due to resident programs, the number of services, etc., could prevent the software from offering optimal functionality and performance. In such cases, free up sufficient memory. We recommend installing additional memory for stable operation.
· Depending on the computer's power-saving settings, etc., the CPU and hard disk may not provide sufficient processing capabilities. For laptop computers in particular, make sure the computer is in the proper conditions to constantly provide high enough performance (for example by keeping the AC power connected).
· Note that problems may arise with the functionality depending on other software running on your computer.
· Operations are not guaranteed with AMD brand CPUs.

3. Install

3-1 Unzip the downloaded file (ZIP file)
– Double click "djay.zip" in the file.
– When the file is unzipped, drag and drop the "djay" icon to the Applications folder icon.

3-2 Double click "djay" application to start installation
License Agreement window will be displayed. After reading carefully through the "djay Software License Agreement," click "Agree" if you agree with it.
If you do not agree with the license agreement, please click "Decline" and stop installing the application.

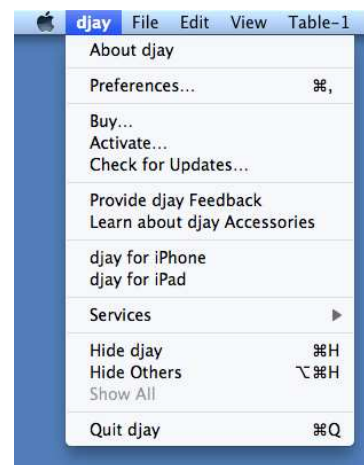

When the following window is displayed, please go on to the next step without pressing "DEMO" button.

3-3 Activate "djay"
Select [djay] in the menu bar and [Activate…] from the dropdown menu.

– Enter your license key and click [Activate].

– When the following message is displayed, the activation process is completed. Please click [OK].

– After djay is closed, connect DDJ-ERGO-V and turn the power on. Then, relaunch djay.

3-4 Set up the audio device

※Please check Devices settings of the Preferences every time you launch djay because the configuration might be different from the one you used the last time depending on the order of launching DDJ-ERGO-V and djay.
**[Recommended launching procedure]**
First, connect DDJ-ERGO-V to Mac using a USB cable and turn the power on; then, launch djay.
[Recommended exiting procedure]
First, shut down djay and then turn off the power of DDJ-ERGO-V.

– Select [djay] from the menu bar and [Preferences...] from the dropdown menu.

[When using only Pre-Cueing through DDJ-ERGO-V]
– From [Devices], select the settings as shown in the window below.
– Please ensure that ch3-4 is selected for Pre-cueing because ch1-2 may be selected right after djay is installed.

Main Output: Built-in Output
Pre-Cueing: PIONEER DDJ-ERGO   ch 3-4
Microphone: Built-in Input

[When using Main Output / Pre-Cueing / Microphone through DDJ-ERGO-V]
– From [Devices], select the settings as shown in the window below.

Main Output: PIONEER DDJ-ERGO   ch 1-2
Pre-Cueing: PIONEER DDJ-ERGO   ch 3-4
Microphone: PIONEER DDJ-ERGO

– Lastly, click [Apply] to reconfigure the Audio Engine.

Now, the setup procedure is completed.
