

# DJ CONTROLLER DDJ-WeGO

# "Serato DJ Intro" Setup Guide

#### **1. Before Start (Important)**

### Please read carefully and follow the instruction below to install "Serato DJ Intro".

\_\_\_\_\_

• Make sure to log on your computer with the administrator account because administrator rights are required when installing the software.

• For Windows users, ASIO driver is required to be used.

Please follow the manual included with your DDJ-WeGO to install the ASIO driver in advance. For Mac OS X users, driver software installation is not needed.

#### Disclaimer:

"Serato DJ Intro" is a product of Serato.

\_\_\_\_\_

In principle, Pioneer is not in the position of answering any inquiries on the usage of the software itself. Please refer to the help menu or access the following support page of Serato: <a href="http://serato.com/downloads/dj-intro">http://serato.com/downloads/dj-intro</a>

#### 2. Minimum Operating Environment

These are simply the minimum requirements to run "Serato DJ Intro". For best performance and for use in professional situations we recommend you use a higher spec computer, preferably with an Intel processor.

Windows®	Windows Vista®/Windows®7 (SP1 or later、32/64bit) Intel® Core Duo 1.6GHz or better 1GB or more RAM
Mac OS X	Mac OS X 10.7.1/10.6.8 Intel® processor platform 1.6GHz or better 1GB or more RAM
Display Resolution	1024 x 768 or better

#### Cautions

- Full functionality is not guaranteed on all computers, even those meeting the operating environment requirements described above.
- Even with the required memory indicated for the operating environment above, lack of memory due to resident programs, the number of services, etc., could prevent the software from offering optimal functionality and performance. In such cases, free up sufficient memory. We recommend installing additional memory for stable operation.
- Depending on the computer's power-saving settings, etc., the CPU and hard disk may not provide sufficient processing capabilities. For laptop computers in particular, make sure the computer is in the proper conditions to constantly provide high enough performance (for example by keeping the AC power connected).
- Note that problems may arise with the functionality depending on other software running on your computer.
- $\cdot\,$  Operations are not guaranteed with AMD brand CPUs.

#### 3. Download

**3–1.** Access the following URL to create your "Serato.com" user account.

http://serato.com/downloads/dj-intro

**3–2.** Click [Serato DJ Intro Mac OS X installer] or [Serato DJ Intro Windows installer] depending on the computer you use.
